

Feng Shui Method: Xuan Kong Da Gua 23.-26. September 2011 in Berlin

In China there were six Xuan Kong schools during the late Qing and early Republic era but nowadays only two Xuan Kong schools survived, one is the more popular and more well-known Xuan Kong Feixing (Flying Stars) School and the other is the less well-known and less popular Xuan Kong Da Gua (XKDG) system.

Da Gua stands for the 64 Hexagrams and the core of this system is based not on flying the stars but on using the Early Heaven Trigrams with the Luoshu numbers as applied to the Hexagrams to assess the Ji-Xiong (auspicious and harmfulness) of a situation, using the Coming Dragon, the Going Water, the Sitting and the Facing of a site as references.

In this workshop we not only will teach you the basics of XKDG Feng Shui system but also the XKDG Date Selection methods to find an auspicious date for any undertakings.

In XKDG and XKDG Date Selections, each of the 64 Hexagrams has an "Element Number" and "Period Number". You will find them on the rings of our San Yuan Bazhai Luopan compass, which you will get a chance to purchase at a discounted price in the workshop. These rings are very important and are the "keys" to unlock the secrets XKDG Feng Shui and XKDG Date Selections.

It is a unique chance for you to cover two important techniques in one Master-Course Workshop, but you need to have a basic knowledge of how to recognize the Chinese characters for the 10 Heavenly Stems and the 12 Earthly Branches, as well as some of

the fundamental concepts used in Feng Shui, like the Hetu, the Luoshu, Early and Later Heaven Trigrams and the construction of the 64 Hexagrams.

It will be a demanding course but a satisfying one, so do your homework and come and learn something new and useful to enhance your already advanced Feng Shui knowledge. Like all other Master-Courses, you will learn how to use what you learned in the class practically with an on-site example, so theory and theory and practice go hand-in-hand on your fingertips.

Due to the small size of the group, we can give you individual attentions and is able to impact knowledge to you at the highest level.

You can look forward to a demanding and hands-on workshop in a pleasant atmosphere of a manageable size study group (up to 10 participants, teaching in English with German translation)!

For hotel accommodation while in Berlin we recommend the Midi Inn (hotel@midi-inn.de), located in the park directly opposite our office/workshop venue.

We look forward to seeing you and for further inquiries please do not hesitate to contact Gyda or Howard.

Date: 23-26. September 2011 in Berlin
