## **About Howard Choy**

Howard Choy is a Feng Shui architect and teacher with more than 30 years of practical experience working at the coalface of Feng Shui. Howard's emphasis is on the practical use of Feng Shui to help you to become a more knowledgeable practitioner.

*“Howard is always remarkable in his understanding of Feng Shui and its many paradigms. He is a rare type of Master who always takes the time to investigate, understand and explain the underlying theory leaving nothing to ‘faith’, no secrets and only practical knowledge. He not only teaches each of the main methods used today, he also explains the variations of the different lineages, their strengths and weaknesses without bias, leaving the final decision of how and what to practice to the empowered student”. Tyler J Rowe*

Howard studied Feng Shui under the personal guidance of Master Ren Zhilin in Hong Kong, and he works with tertiary institutions on Feng Shui research in China, Hong Kong and Germany.

Howard is the Principal of the European College of Feng Shui (ECOFS) and a director of ECOFS Consulting and ar-qi-tektur, Feng Shui Architects and Planners based in Berlin.

Howard is a well renowned speaker at international Feng Shui conferences, and a willing teacher who shares his knowledge and experience with his students. Howard's Australian clients include Murdoch Magazines, Speedo Australia, Star City Casino, Sydney Darling Harbour Authority and the City of Sydney.

### **Why study with Howard?**

*“Howard’s knowledge is unparalleled. He is perhaps the only teacher of Feng Shui equally at home in practical application and academic research. He is also one of the few who understands the Chinese classics and is able to explain them not just in translated English but in Australian! His sense of humour and passion to answer any question or solve any problem, paired with his uncanny insights make him the most influential local master of his generation. It would be negligent not to take any opportunity to learn from Howard, as those who do, never leave with their skill and art unchanged.” **Tyler J Rowe***

*“Howard is a very patient and generous teacher whose step by step overview of how best to implement specific formulas into your Feng Shui consultations is not only practical, but ensures you take away the tools you need to incorporate his teachings into your everyday consultancy services.” **Carolyn McCallum***

*“Thank you Howard for a fantastic five days. I am only new to Feng Shui and I found the course easy to follow. Howard’s study notes and teachings were brilliant and all of the examples were greatly appreciated. I look forward to studying with Howard in the future.” **Kelly Ingram***
